POE Module

1.product features:

1.1 Specification:Short circuit protection

1.2 Security:15-28V input to 12V

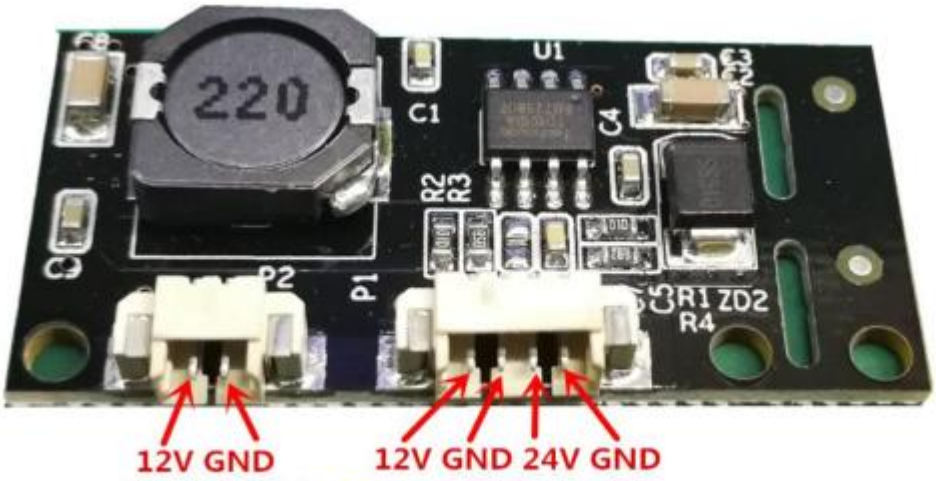

1.3 Size :38*19mm

2. Applications:24V POE power supply

3. The main parameters:

No.	Parameter	Symbol	Min	Typical values	Max	Unit
1	Input Voltage	Vin	12	24	30	V
2	output voltage	+VDC	11.8	12.3	12.8	V
3	output Current	PWR		1	2	A
5	Storage Temperature	Tj	-40	25	105	℃
6	Operating Temperature	Tstg	-20	25	70	℃

3.1 is typically 25 ℃, measured under the 24V power supply environment, only for reference design

connect our cable to IPC connect cable : red black 45 78
